Ransomware landscape: February 2018

Monthly summary of ransomware leak-site listings

Period: February 2018 | Compared with the previous month | Counts are listings by the date we first saw them

3	+0.0%	3	1
listings this month	vs previous month (3)	groups that posted	groups seen for the first time

Key findings

- 3 organizations were listed in February 2018, +0.0% against 3 in the month before.
- samas was the most active group with 1 listings (33.3% of the month). The five most active groups account for 100.0% of all listings.
- Government & Defense was the most listed sector with 2 listings (66.7%), followed by Transportation (1).
- United States was the most listed country with 3 listings (100.0%).
- 1 groups listed for the first time this month.
- The busiest day was 2018-02-16 with 1 listings.

Who is behind the listings

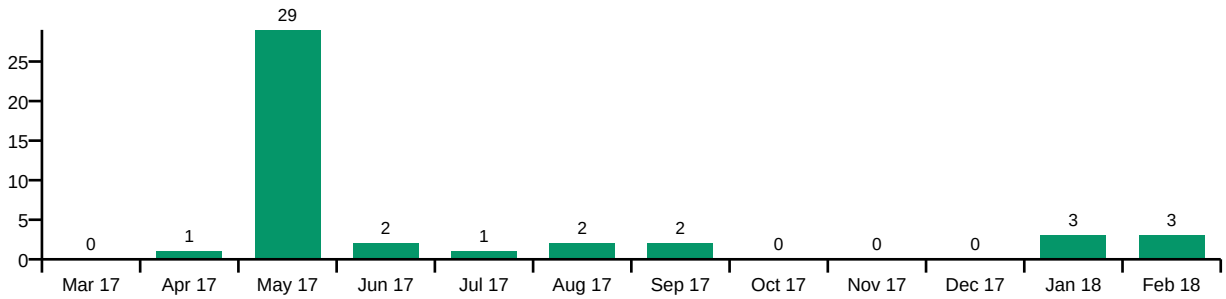

Dark: samas (33.3%). Grey: the next four groups (66.7%). Light: all other groups (0.0%).

What this means for your team

- Activity is concentrated: five groups (samas, samsam, wannacry) made 100.0% of the month's listings. Make sure your monitoring and threat briefings cover them first.
- Government & Defense had the most listings (2). If you work in it, or buy from it, check whether your suppliers were named this month.
- 1 groups listed for the first time. Add new names to your watchlist and note which sectors they went for.

Listings per month, last 12 months

Data: public ransomware leak-site listings, compiled by Ransomware Tracker by ExposureDrift from open threat-intelligence sources. A listing is a claim made by a criminal group, not a confirmed breach.

Most active groups

Group	Listings	Share	vs last month
samas	1	33.3%	new
samsam	1	33.3%	-2
wannacry	1	33.3%	new

Most listed sectors

Sector	Listings	Share	vs last month
Government & Defense	2	66.7%	+1
Transportation	1	33.3%	new

Most listed countries

Country	Listings	Share
United States	3	100.0%

Groups that listed for the first time

samas

About these numbers

Listing	A post on a ransomware group's leak site naming an organization. It is the group's claim, not a confirmed breach.
Date	We count a listing on the date we first saw it, which can be days or weeks after the attack.
Share	The group's, sector's or country's part of all listings in the month.
vs last month	Change in listings from the month before. 'new' means none the month before. Colour shows direction only.
Limits	Many victims are never listed, so this describes leak-site activity, not the true number of ransomware incidents.
