Who is behind the listings

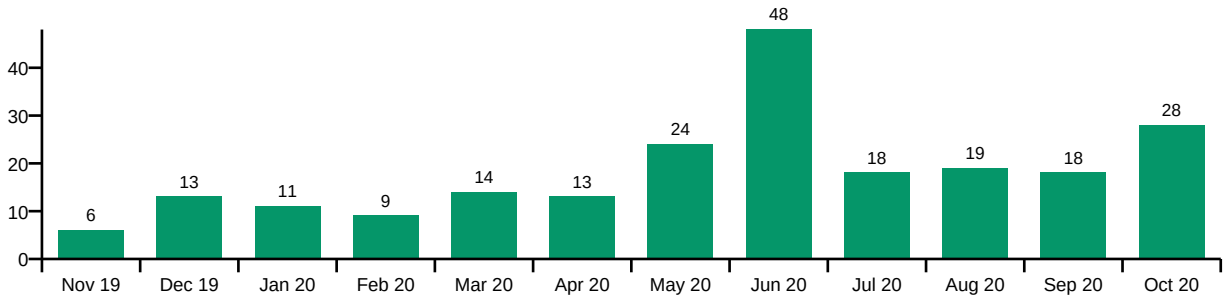

Dark: ryuk (25.0%). Grey: the next four groups (42.9%). Light: all other groups (32.1%).

What this means for your team

- Activity is concentrated: five groups (ryuk, conti, netwalker, ragnarlocker, doppelpaymer) made 67.9% of the month's listings. Make sure your monitoring and threat briefings cover them first.
- Healthcare had the most listings (10). If you work in it, or buy from it, check whether your suppliers were named this month.
- Listings rose 56% on the month before. Confirm that alerts for newly named organizations reach someone who acts on them the same day.
- 3 groups listed for the first time. Add new names to your watchlist and note which sectors they went for.

About these numbers

Listing	A post on a ransomware group's leak site naming an organization. It is the group's claim, not a confirmed breach.
Date	We count a listing on the date we first saw it, which can be days or weeks after the attack.
Share	The group's, sector's or country's part of all listings in the month.
vs last month	Change in listings from the month before. 'new' means none the month before. Colour shows direction only.
Limits	Many victims are never listed, so this describes leak-site activity, not the true number of ransomware incidents.
