Monthly summary of ransomware leak-site listings

Period: June 2025 | Compared with the previous month | Counts are listings by the date we first saw them

507	-17.7%	48	5
listings this month	vs previous month (616)	groups that posted	groups seen for the first time

Key findings

- 507 organizations were listed in June 2025, -17.7% against 616 in the month before.
- qilin was the most active group with 94 listings (18.5% of the month). The five most active groups account for 42.0% of all listings.
- Manufacturing was the most listed sector with 81 listings (16.0%), followed by Technology (74).
- United States was the most listed country with 238 listings (46.9%).
- 5 groups listed for the first time this month.
- The busiest day was 2025-06-12 with 39 listings.

Who is behind the listings

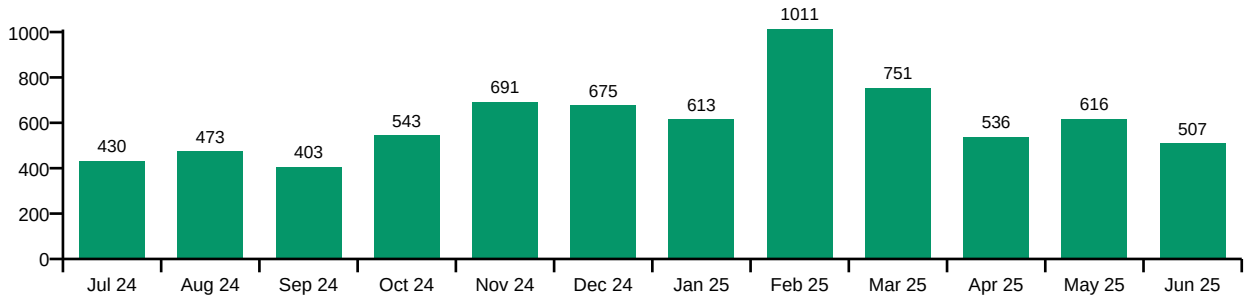

Dark: qilin (18.5%). Grey: the next four groups (23.5%). Light: all other groups (58.0%).

What this means for your team

- Activity is spread out: the five busiest groups (qilin, akira, play, safepay, dragonforce) made only 42.0% of listings, so watching a few groups is not enough. Track listings by sector and supplier instead.
- Manufacturing had the most listings (81). If you work in it, or buy from it, check whether your suppliers were named this month.
- Listings fell 18% on the month before. A quieter month on leak sites is not a reason to relax controls: many victims are never listed.
- 5 groups listed for the first time. Add new names to your watchlist and note which sectors they went for.

About these numbers

Listing	A post on a ransomware group's leak site naming an organization. It is the group's claim, not a confirmed breach.
Date	We count a listing on the date we first saw it, which can be days or weeks after the attack.
Share	The group's, sector's or country's part of all listings in the month.
vs last month	Change in listings from the month before. 'new' means none the month before. Colour shows direction only.
Limits	Many victims are never listed, so this describes leak-site activity, not the true number of ransomware incidents.
